

Figures and Tables Clareon Compendia—Batch 3 & 4

Three-Year Multinational Clinical Study on an Aspheric Hydrophobic
Acrylic Intraocular Lens*

Nuijts et al. *J Cataract Refract Surg.* 2023;49(7):672-678

Figure 1. Mean (SD) monocular CDVA (logMAR) at 4 m.

Commented [AV1]: Fig 1A (pg 674) from Nuijts et al. 2023

Commented [AV2R1]: <<Remove A from upper left corner>>

Figure 2. Mean (SD) monocular UDVA (logMAR) at 4 m over time (N = 424 eyes).

Commented [AV3]: Fig 2A (pg 676) from Nuijts et al. 2023

Commented [AV4R3]: <<Remove B from upper left corner>>

Twelve-Months Follow-Up Postmarket Study of a Hydrophobic Intraocular Lens Using a Preloaded Automated Injector in an Indian Population*

Titiyal et al. *Clin Ophthalmol*. 2022;16:4215-4225.

Figure 1. Mean monocular BCDVA at 4 m in the all-implanted analysis set.

Error bars represent 95% CI; CI accounted for the correlation for visual acuity between first and second eyes in the same patient
BCDVA, best-corrected distance visual acuity.

Commented [AV5]: Fig 2a (pg 4220) from Titiyal et al. 2022

Figure 2. Mean monocular UCDVA at 4 m in the all-implanted analysis set.

Commented [AV6]: Fig 3a (pg 4221) from original article

Error bars represent 95% CI; CI accounted for the correlation for visual acuity between first and second eyes in the same patient.
UCDVA, uncorrected distance visual acuity.

Long-term Stability of New Acrylic Intraocular Lens Materials by Accelerated Severe Aging Test

Tsuji et al. *Tokai J Exp Clin Med.* 2022;47(1):9-12

Figure 1. Changes in lens weight over time.

Commented [AV7]: Fig 3 (pg 10) from Tsuji et al. 2022

Video Analysis of Optic-Haptic-Interaction During Hydrophobic Acrylic Intraocular Lens Implantation Using Preloaded Injectors

Yan et al. *BMC Ophthalmol.* 2023;23(1):515

Figure 1. Adhesion rate between the two haptics and between haptic and optic.

Commented [AV8]: Figure 3B, pg 5 from Yan et al. 2023
