

KWHCOIN

A renewable energy company and peer-to-peer social impact project that uses a **native token** for a **decentralized application**. KWH Coin allows prosumers, consumers and other distributed energy resources to connect and configure their energy resources.

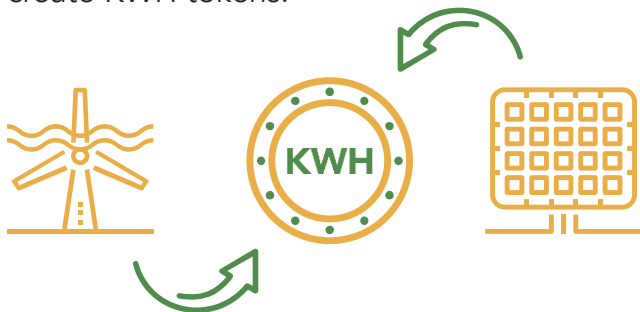

OUR MISSION

To improve the lives of the **1.2 BILLION PEOPLE** across the globe without reliable energy access. We do this **one community at a time**.

TOKENIZING RENEWABLE ENERGY

The KWH Coin represents a kilowatt hour (kWh) of deliverable energy output or equivalent. Physical units of kWh energy are leveraged from multiple sources including smart meters, sensor readings and green button data. This measurable output is tokenized on the blockchain to create KWH tokens.

THE PROBLEM

An estimated **16 percent** of the world's population — **1.2 billion people** — have **LITTLE** or **NO ACCESS** to electricity.

THE SOLUTION

Build a **decentralized network** of energy resources with a **zero carbon footprint**.

888-KWH-COIN (888-594-2646) • contact@kwhcoin.com • www.kwhcoin.com

The development of the ecosystem will allow renewable energy resources to collaborate and unlock value for the emerging internet of energy with holders of the KWHCoin token.

KWHCoin now has renewable energy nodes in **6 continents** and generation in **32 countries**. The blockchain currently has **98 confirmed partnerships**.

ACHIEVEMENTS

KWH Coin Announces Partnership to Become the Largest Energy Blockchain in Puerto Rico. KWH Coin is partnering with local officials, off-grid technology companies, humanitarian groups and other blockchain partners to install solar panels, micro-grids, wind and hydroelectric power and energy storage in two locations (Loiza and Orocovis) to launch its global network of renewable energy services and ecosystem development.

Girard Newkirk, CEO and Founder

Management Team

Vishal Karangutkar, Partner & CDO
Angela Betancourt, CMO
Adam Finesilver, Finance Director
Monica Shepard, Executive Member
Iberys Mendoza, Executive Assistant

Board Of Advisors

Tony Tiyou, Renewable Energy Expert
Gareth Dauley, Network Partner
Lucy Njuguna, Business and Network Development Kenya
Dr. Alison Thompson, Social Impact Partner
Bill Shevlin, Market Development and Strategy
Lauren Slade, Network Development Partner

VALUE TO INVESTOR

Tradeable token on multiple cryptocurrency exchanges. This is a new community token model with access to the internet of energy that also has social impact.

KWHCoin is a startup with tremendous market position in a developing industry.
